Find links that work: What’s the difference between Permalinks and URLs?

Find permalinks for articles, videos & and eBooks from the Lynn Library for your Canvas courses

After you have found library content you wish to add to your class as a permalink, it’s natural to think that the URL in the menu bar would be the best way to go about adding the link to your class. It isn’t. These links don’t work after one or two days. What follows are the ways to find permalinks to library resources for varied library content.

**Articles:**
- Lynn Library catalog  
- Academic Search Ultimate  
- ProQuest  

**Videos:**
- Films on Demand  
- Kanopy  

**Ebooks:**
- Lynn Library catalog  
- EBook Central
